# Carbon Cycling and Greenhouse Gas Measurements in Seagrass Meadows

**SeaStore**

Diversity Enhancement Through  
Seagrass Restoration

Friday 16<sup>th</sup> of May 2025

13:00 – 15:30 CEST (Berlin)

Zoom: <https://zoom.io-warnemuende.de/rotuv>

## Presenters:

Linnea Henriksson from University of Gothenburg, Sweden

Theodor Kindeberg from University of Lund, Sweden

Alexandra L. Bijak from University of Florida, USA

Join us to discuss GHG measurements, carbon budgets, and best practice for monitoring GHG dynamics in seagrass meadows. Engage in discussions or listen in as we explore challenges, methodologies and future research directions.
